

## Decorating prayer cards with young children by Beth Diehl

Prayer cards are a beautiful addition to a home prayer table. They feature short phrases, prayers, or Scripture verses to guide our focus. They can be artistically decorated with different borders, colors, and pictures to add to their beauty.

Even before children learn to read and write, they can participate in decorating their own prayer cards.

Attached are several examples of prayer cards for the young child. Feel free to print off any that are interesting to you. (Tip: Attaching the decorated page to a cardstock or construction paper backing will make the prayer card sturdier and easier to display.)

Here are some pictures of some finished prayer cards!
